

Subject: Multiple login failures for the same User | Medium | Non-Actionable | host_39

Hi Team,

Multiple login failures for the same User detected from 244.179.137.146 to 206.140.150.87.

Security Alert Details:

SOC Analyst Triage Comments:

- This alert indicates Medium severity, which may not pose an immediate risk.
- The event was triggered from IP address 244.179.137.146 targeting 206.140.150.87, possibly indicating routine maintenance or a benign action.
- Further investigation is recommended to determine if this is a false positive or requires attention.

Verifications Required:

Review logs for anomalies and potential misconfigurations.

Recommended Next Steps:

Monitor the situation and ensure task disabling was intentional.

Sincerely,

SOC Team
